American Cancer Society

The American Cancer Society is on a mission to free the world from cancer. For more than 100 years, we have helped lead an evolution in the way the world prevents, detects, treats, and thinks about cancer. We have contributed to great progress in the fight against cancer. Our work has helped lead to a 32% decline in the US cancer death rate from 1991 to 2019, resulting in 3.5 million fewer deaths during that time. As the nation's preeminent cancer-fighting organization, we fund and conduct research, share expert information, support people with cancer, spread the word about prevention, and through our advocacy affiliate, the American Cancer Society Cancer Action Network (ACS CAN), advocate for public policy change. We are committed to ensuring that ALL people have a fair and just opportunity to prevent, find, treat, and survive cancer. Thanks in large part to our decades of work, a cancer diagnosis does not come without hope, and the cancer journey is not one that is traveled alone.

American Cancer Society improves lives in our community.

Despite the unprecedented challenges we faced in 2020, the American Cancer Society continued to advance our mission to save lives, celebrate lives, and lead the fight for a world without cancer, for all people, and for our community.

Research that Reaches People

Innovative research takes place in a lab, but its impact is felt by our friends, family, and neighbors who benefit from improved cancer treatments and cures. By helping produce better and more accessible treatments, finding factors that may cause cancer, and improving quality of life for anyone facing cancer, the American Cancer Society fights cancer before it appears and create better outcomes when it does.

Education for the Power to Choose

People with cancer and their caregivers need access to the latest information so they can make informed decisions. The American Cancer Society provides evidence-based facts and share ways to reduce cancer risk, so people of all walks of life in our community can live longer, healthier lives. We also educate health care providers and public health organizations so that we can increase screening near you, provide more effective patient support services, and offer greater access to treatments and pain relief.

Advocacy so Change Becomes Reality

Through our nonpartisan advocacy affiliate, the American Cancer Society Cancer Action NetworkSM (ACS CAN), we're fighting cancer right in our city halls, our statehouses, and Congress to make our community healthier, create safer workplaces, and provide affordable access to quality medical care for everyone.

Services that Support

Imagine being a cancer patient or caregiver and not having anyone to turn to. The American Cancer Society makes sure no one feels alone on their cancer journey by providing things like our 24/7 helpline, free rides to medical appointments, and free places to stay for people traveling to treatment. When it comes to cancer, we provide support that always hits close to home.

Your gift means we can bring hope to cancer patients. Together we are fighting cancer smarter, better and harder than we ever have before.

Thank you for your support.

The American Cancer Society made a profound impact in 2021

Because of our generous supporters, the American Cancer Society was able to continue our mission in 2021, working around the clock to lead the fight for a world without cancer. We made advances in discovering new ways to prevent, find, and treat cancer and to improve the quality of life for people living with cancer; advocated for improved access to care; and provided critical patient support services across the country.

Discovery

Research is at the core of our organization, but its effects are felt far beyond the lab. Here is some of what we were able to do this year

TOTAL NUMBER OF ACTIVE RESEARCH GRANTS

689

Launched the Diversity in Cancer Research program to improve diversity and inclusion in cancer research and ensure better outcomes for people with cancer.

INVESTMENT IN RESEARCH

\$395 million

Including grants that study how metastatic cancer cells respond to certain targeted drugs, develop tools to predict cancer recurrence, and more.

Advocacy

Through the American Cancer Society Cancer Action NetworkSM (ACS CAN), we continued our fight at all levels of government.

MAJOR BILL PASSED IN LINE WITH ACS CAN'S ACCESS TO CARE PRIORITIES

American Rescue Plan

To date, protected critical Breast and Cervical Cancer Early Detection Program funding in 33 states and helped increased funding in 6 states, which provided access to breast and cervical cancer screenings to people who cannot afford them.

Led years-long advocacy resulting in US Supreme Court upholding the Affordable Care Act and preserving patient protections.

Patient Support

2021 saw the reemergence of several support programs, and a continued investment in our 24/7 resources.

FUNDING FOR CANCER-RELATED TRANSPORTATION COSTS

\$2 million

CONTINUATION OF CRITICAL PATIENT SUPPORT SERVICES

Reemergence of our Road To Recovery[®] program, which offers free rides to cancer treatment and appointments.

Reopening of many of our Hope Lodge[®] locations, under new COVID-19 protocols, providing free lodging for patients and caregivers traveling for treatment.
